

Vision, Mission, and Goals of the Department of Hadith and Its Sciences

2023-2024

Vision:

To become an internationally recognized center of excellence in the study, preservation, and dissemination of the Prophetic Hadith and its sciences. The department aims to promote a deep understanding of the Prophetic heritage among scholars, students, and the community within contemporary scientific contexts, preparing distinguished scientific cadres who contribute to the accurate understanding and preservation of the Sunnah.

Mission:

The Department of Hadith and Its Sciences at the University of Fallujah is dedicated to advancing scientific research, education, and societal impact in the field of Prophetic Hadith. Our mission is to preserve, analyze, and disseminate the noble Hadith while promoting critical thinking, academic excellence, and ethical leadership among students and researchers. The department's mission includes achieving the following goals:

1. Providing students with comprehensive and precise education in the Hadith and its sciences, equipping them with the necessary skills to critically analyze, interpret, and transmit Hadith narratives.
2. Promoting research in Hadith studies that adhere to traditional scientific methodology while engaging with contemporary academic discourse.
3. Serving the community by offering educational programs and resources that enhance the understanding of the Prophetic Hadith among the general public, thereby elevating the status of the Sunnah and contributing to Iraq's intellectual and cultural life through enhanced dialogue and cooperation among Hadith scholars and other disciplines.
4. Preserving Iraq's rich Islamic heritage and its role in promoting peace and understanding within Iraqi society.
5. Preparing graduates who can cultivate a balanced and enlightened culture that positively interacts with sustainable development.

Goals:

The department's goals are as follows:

First: Enhancing Education and Learning:

Providing high-quality educational and training programs that offer students in-depth knowledge of the Hadith sciences, critical analytical skills, and an accurate understanding of Islamic heritage.

Developing a supportive educational environment that fosters intellectual curiosity, ethical values, and a lifelong commitment to learning among students and educators.

Utilizing innovative teaching methods that contribute to a deep and comprehensive understanding of the Prophetic Sunnah.

Second: Encouraging Scientific Research:

1. Supporting scientific research and studies in the field of Hadith sciences.
2. Publishing scientific research and articles in peer-reviewed journals.
3. Organizing scientific conferences and seminars to promote academic dialogue and collaboration.
4. Working on the authentication and publication of ancient manuscripts and books in Hadith sciences.

Third: Community Service:

1. Engaging with local communities and stakeholders to enhance the understanding and appreciation of Prophetic teachings and their application in daily life.
2. Organizing awareness activities, seminars, and workshops aimed at addressing contemporary societal challenges in light of the Sunnah and promoting dialogue and reconciliation within diverse communities.
3. Providing scientific consultations and services to organizations and institutions interested in Hadith sciences.

Fourth: Academic Collaboration:

1. Establishing partnerships and collaborations with Hadith departments and centers in other universities, as well as with academic institutions and research centers worldwide, to facilitate knowledge exchange, joint research projects, and scholarly dialogue in the field of Hadith studies.
2. Enhancing cooperation with researchers and specialists through international conferences and academic exchanges at both local and international levels.

Fifth: Staff Development:

1. Preparing distinguished scientific cadres capable of teaching and researching in Hadith sciences.
2. Offering training and development programs for faculty members and researchers.
